DRY-EXCELLENT WICKING ACTION

Filatex polypropylene yarn (PP) , is 1/8 absorbent then cotton and polyester. This shows the low moisture gaining and well dry keeping factors of it.

Filatex PP keeps skin dry. By its unique water transfer properties (Wicking action), sweat or water is naturally and quickly sent away from the body and disappears by evaporation. By these two properties (transfer and evaporation)you feel dry and warm in every condition.

HEALTHY AND SAFE

You can protect yourself from the allergies formed by sweating by using the products made by Filatex PP . The body is protected from any allergic reaction as the sweat is sent away from the body very quickly..

FRIENDLY USE

The products made by Filatex PP can be washed in machines safely. (Up to 90°C). No fading , no shrinking , no hairing risk.

RESISTANT

Highly washing and friction resistance , color permanance, consistency, chemical and stain preventing properties, adds Filatex PP yarn made products long lasting resistance.

ODOURLESS

Bad smells will not be felt as Filatex PP yarn do not keep sweat.
